30th Anniversary
1964-1994

Volume 6, No. 8 Apr. 1994

by: Timothy Sickle

About 68 (!) people were in attendance at last month's meeting, which was another low-key affair as is our tradition in our original location, K-100. Talk continued on final arrangements for our upcoming NNL. Raffle donations are rolling in daily, and the trophies should be ordered by the time you read this.

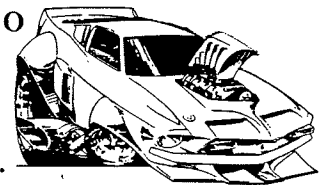

The raffle raised \$157.50 (plus \$18.65). The club would like to thank the raffle donors as shown below: Irv Arter, Ron Hamilton, Ron & Bonnie Palmer, Lyle Willits, Pat Maphis, John Kester, Don Krone, Gary Sutherlin, Brad, Randy Paschke, Clyde Bagley, Tim Sickle, Chris Whalley, Dirk Johnson (a.k.a. Detail Master), and Replicas & Miniatures Co. of MD. Special thanks also go out to those as shown below:

It also bears mentioning at this time that Dirk Johnson (a.k.a. Detail Master, P.O. Box 1465, Sterling, Va. 22170) will be a very active supporter of not only our club, but many other clubs across the country as well. It's up to us to actively patronize Detail Master in appreciation of his continued support [Ed. Note: With the detail items he has currently available (or on the way!), I don't believe this will be a problem!]

***** For Your Information! *****

The meeting dates for 1994 have been "sent down from the Mountain" so to speak by our own Matt Guilfoyle (and not without some serious wrangling, I might add!). All meetings will be from Noon to 5 PM and as you will quickly notice, we will be in the barn four times this year! For the rundown, see below:

- | | |
|---------------|--------------|
| January 15 * | July 16 |
| February 19 * | August 20 * |
| March 19 | September 17 |
| April 16 * | October 15 |
| May 14 | November 19 |
| June 18 | December 17 |

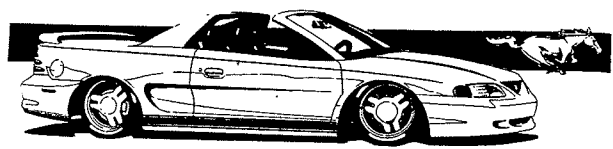

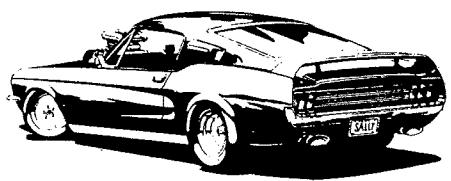

* Yeah, you guessed it, we are relegated to the Barn for these meetings!

Open Letter to MAMA's BoyZ:

We would like to thank Mike Adams & son along with Dave Toups for helping us load and unload our merchandise at NNL East. Their help made our day much easier than it otherwise would have been. Thanks also to Matt Guilfoyle for making a much-needed Burger King run. It's nice to know that we have such a good bunch of guys in our club, who are also very good friends.

Signed,
 Ron & Grace Bradley,

Sneakin' a Peek!

This column will appear as frequently (or infrequently!) as new releases from the manufacturers. The idea behind it is to give a "thumbnail

review" of the releases as they hit the shelves with a detailed review to follow at a later date (hopefully!). We'll see how it goes!

* **1967 Plymouth GTX** (Revell #7359): Molded in Blue Metallic (Ugh!)...great looking 19-piece Hemi...upper, lower radiator hoses and plastic heater hoses!...most chrome trim separate (door handles, windshield wipers, gas cap, mirrors, hood ornament)...really nicely engraved chassis with separate exhaust system, Dana rear end...Magnum 500 wheels...decals include redlines for tires...instructions include color matrix chart. (Ed. Note: Way to go, Revell! I can't wait for the "Sox & Martin" version!).

1994 Dodge Ram 2500 Pick-up Truck

(AMT Snapfast Plus kit, 1/25th Scale)

It seems lately that I have been in a rut doing kit reviews on our simpler friends- you know, the snap kits. Not that there is anything at all wrong with these kits, but much of my time lately is being devoted to a 1:1 resto project, the total restoration of a 1936 Buick Century, so I have not had adequate time to build what I love, the complicated 1/25th scale truck kits.

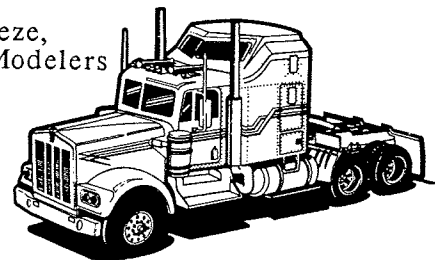

Anyway, back to the basics here. AMT has produced a very simple kit here, mostly a curbside kit with only 28 pieces molded in high gloss black, chrome, red and clear plastic, and textured gray for the interior. However, don't be deceived by the quality of this kit based on the low parts count. It is an exquisite kit with truly state-of-the-art detailing, especially on the one-piece chassis.

I am going to spend more time on the chassis than the rest of the kit because it is a work of art. Too bad this kit did not come with a complete engine and opening hood. The chassis clearly shows the lower fan shroud, front torsion bar, oil pan with drain plug, starter motor, auto transmission, detailed driveshaft, dual exhaust with twin catalytic converters, muffler, tail pipe, fuel tank, and spare tire with custom wheel and lug nuts. How can so much tool and die work go into a single piece? Probably because the plastic bag it was tightly wrapped in was clearly marked CHINA.

One lesson ALL manufacturers could learn here is the packaging technique used here by the Chinese. The body of the truck was in a bubble pack plastic wrap, with every individual component or set of parts individually wrapped. The wheels were plastic wrapped, the windshield plastic wrapped and taped tight, and all the interior parts were wrapped. In fact, there was not one single piece of sprue in the entire kit. All parts were neatly trimmed and wrapped like the butcher used to do!

I would highly recommend this kit for anyone's truck collection. By the way, did I mention the opening tail gate? I didn't think I did!

Kenworth Aerodyne

(AMT Snapfast, 1/32nd scale)

I was awarded this kit at the February MAMA meeting to do a kit review, I expect because I am a truck builder in 1/25th scale (Ed. Note: Give that man a kewpie doll!).

Upon opening this kit it seemed to have adequate parts bagged in AMT's usual fashion, and I was actually surprised to see waterslide decals

(something Revell Snaptite could pay attention to!). The instructions were clear, printed in large letters, indicating that this kit is mostly for beginners, and was in 16 stages with most stages containing two or three uncomplicated steps. I would suggest that the decals be placed on the truck first, rather than last, as shown, because most young builders would have a problem doing this with the truck fully assembled.

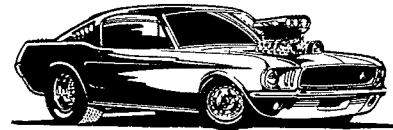

Overall the truck exhibited good engraving and moderate detail, but having built some truck kits with more than 500 parts, this one was 'child's play'. In fact, I made a game out of it to see how fast I could assemble it, not using the directions and it was together in about 12 minutes. There was no painting necessary, however if you are into 1/32nd scale kits this truck could be made very presentable with body color, some detail painting such as the marker lights, grille, etc. The 'snap' fasteners on this kit were round pegs in round holes for the most part, whereas Revell's round peg/square hole system works a little better. Many of the parts were fragile, and I could see where small, inexperienced hands could easily break parts off trying to press-fit them, and some parts fit rather loosely and actually could have been glued to make a more positive fit.

Bottom Line...This kit was designed for kids, but the fact of the matter is that the kit is too fragile for a toy, may be too advanced for the very young who would certainly break it playing with it, and was no challenge for anyone with even short term experience. It did however, have the ability to teach beginners how to follow directions, use waterslide decals, and maybe interest them enough to advance to more complex kits down the road. Ages 8 and up was the recommended audience, and I would follow this recommendation.

Chevrolet Caprice 4-door Taxi/Fire Chief

Revell Snaptite kit #6294, 1/25th scale

This kit was somewhat of a surprise to me because for several years now I have been preaching to the Big Three (Chrysler's not involved here) that they should do a 2 in one or a 3 in one kit with a four door car to include a Taxi Cab and a Fire Chief car. Hmmm, maybe someone out there is actually listening. The result was a crisp, clean kit of a late model 4-door Chevy that is a reissue of the recent police package car with electronic lights.

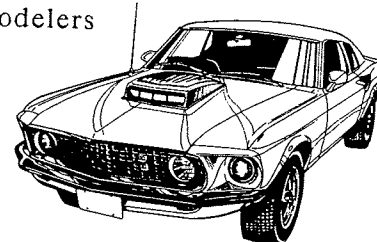

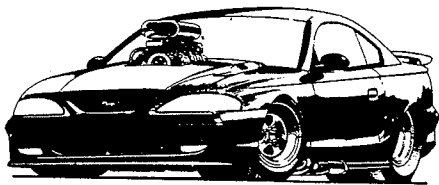

The box has some very nice artwork/photos on it to aid in building and the kit is very crisp and clean with regard to mold lines. Unlike many of the more expensive Japanese snap-plus type kits where there is no engine, this vehicle has a very detailed engine consisting of 11 parts which is fairly nice for a snap kit. There are separate firewall, master cylinder, exhaust system, cruise control module, 5-piece rear suspension, 1-piece front suspension, and radiator. This could very nearly be considered a glue kit if one pretended hard enough. The interior has separate door side panels, which is a blessing even for the adult builder when it comes to paint and detailing. There are radios for the Fire Chief car along with a nice light bar and spotlight. The taxi version includes a meter, roof light, and clipboard. Transfers for the Taxi include the side door rate chart, checkerboard stripe and taxi logos, while the Fire Chief version includes Chicago Fire Dept. Battalion 14 transfers.

This kit was obviously geared to the younger builder as it is a snap kit, molded in a bright yellow and includes stick-on vinyl markings (Yuck!). But I am not going to complain too loudly because it is a taxi and they are rare! I suppose the idea behind the bright yellow plastic is so the younger builders won't have to get sloppy with paint, but this obviously won't apply when building the 'red' Fire Chiefs' version. These are my

only two complaints. I sincerely wish Revell would shy away from using vinyl transfers as they are useless and not very effective when trying to build in scale.

Overall, it was a great kit and necessary for the Light Commercial builders, worth the purchase price and I hope to see more of this type vehicle. Remember Revell.....DECALS are in order here, scrap the vinyl transfers!

BITS & PIECES

- * **Breakfast of MD modeling champs!** Yes, that staple of MAMA's BoyZ, the Brownie was in ample supply at last month's meeting thanks to Dave & Karen Roehrle and Tim Powers. Thanks guys 'n gals!
- * **On the subject.** And while I'm thinkin' about it, I think we would all like to extend a hale 'n hearty **Welcome Back!** to Dave & Karen Roehrle. Their presence was sorely missed by all of us!
- * **NNL Sign-up.** Remember, we will be circulating a sign-up sheet between now and our show this year (in May), so you have plenty of time to sign up. And if you do sign up, please show up, OK? We are also actively seeking ideas for activities at the NNL such as **blind builds, scrambled car names, name the parts, and coloring contests** just to name a few. If you have any ideas, let an officer know at an upcoming meeting.
- * **NNL Show within a show!** It looks as though we will have an impromptu car show in the parking lot at the Days Hotel during our NNL in May. Your fearless editor spoke with the **Royal GTOs**, and several seem interested to cruise up and 'check us out' while the **Chesapeake Area Mustang Club** may be doing the same thing. These two clubs are apparently also going to sponsor **Best GTO** and **Best Mustang** awards in light of the 30th Anniversary of both these milestone cars. Any club member who has an older "classic" auto (Rex? Dave? Jimmy?) is invited to bring it out to the show (Ed. Note: I am striving to get my GTO there, although it is by no means a show car!). I think we have created a monster!
- * **Believe it or stuff it!** Didja hear about the recent tremors out in Bowie, MD? No, it wasn't an earthquake- Your fearless editor just got his 1968 GTO cranked up, that's all! It's a real ground pounder, too- the aftershock felt as far away as California that same day will attest to that! I had truly forgotten exactly how sweet cars sounded 'way back then! My darling wife, Debbie, thought it was a little loud, to which I responded with my Tim "Tool Man" Taylor "more power" grunt signifying my approval! I'm gettin' pumped up, guys!
- * **Lightning strikes again!** (No, I am not talkin' about Ford's hot lil truck!). I am talking about a certain Indy car owned by one **Charlie Bennett**. Seems as though Charlie's Indy car made the cover of the latest **IPMS Journal** (color, no less!). Congratulations, Charlie!
- * **"Model King's Heartbeat"**! Seems as though Dave Burkett (a.k.a. Model King) is having none other than AMT run him a batch of 10,000 1963 Impalas (last seen in the Prestige series) in plain brown boxes. So if you are interested, maybe you can catch up to him at our NNL show in May as I understand he will be in attendance!
- * **SSP Revisited.** Word is this quarters limited reissues from Revell/Monogram will be as follows-"**Beatnik Bandit**", "**Red Baron**", "**Sheriff's Blazer**", '30 Ford Touring Street Rod, and 1937 Cord 812. As

always, if one of these "floats yer boat", get on down to your local hobby shop and order it as that's the only place you will find these puppies!

- * **Club News!** Seems as though one of our own, **David Mark Wheeler** has started a **model club** which meets in the Glen Burnie area. Known as "**Our Model is Christ**", they meet at The First Christian Church, 320 Oak Manor Drive, Glen Burnie, MD 21061 between 1 and 4 P.M. and everyone is welcome. Meeting dates are listed below (with seminars scheduled as well):

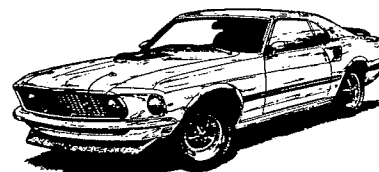

May 14th-Open
June 11th-Open
July 9th-Open
Aug. 13th-Open
Sep. 10th-Basic Spray Painting (Irv Arter)
Oct. 8th-Open
Nov. 12th-Engine Detailing (Tim Powers)
Dec. 10th-Christmas Party/Gift Exchange

If you are interested in attending, have questions, or are possibly interested in giving a seminar, contact **David Mark Wheeler** at (410)536-8175.

- * "**Kat**" **Corrections.** Got a nice letter from **Don Graham** regarding the info we published last month on the Memorial for **Budd "The Kat" Anderson**. Seems as though I made an assumption (you know what happens when you do that!) that the marker would be placed at Budd's final resting place. Well, Don was kind enough to point out that Budd was in fact cremated and his ashes scattered. The memorial would be put on display at two shows (minimum) annually, the **NNL Cruisin' Nationals** and the **West Coast Kustoms Paso Robles Model Car Contest** as these were two of his favorite shows. And finally, it was brought to my attention that I misspelled Budd's last name- it is **Anderson** not **Andersen**. My apologies and thanks to **Don Graham** for clarifying these items!
- * "**Use the Force, Luke!**" Huh?!? The latest issue of **Motor Trend** magazine has an ad for the new **Chevrolet Impala SS**. Seems as though **Chevrolet** would have us believe that **Darth Vader** would drive a car like this. Irregardless, a quick toll-free call to (800)950-2438 will get interested parties a **brochure** on this new bad-boy ride! I got one, and its way cool!
- * **Horse Power!** To dramatize traffic congestion in Lisbon, Portugal's Socialist party organized a race between a **Burro** and a **Ferrari 348TS** coupe on 1.6 mile course along a crowded road from suburban **Odivelas** to one of the main entrances of the capital. The burro beat the **Prancing Horse** by **four minutes**. This item appeared in the Mar. 16 issue of the **Prince George's Journal**. Sorry **Brad**, I don't make 'em up, I just print 'em!
- * **Parts Plus!** At this time, I would like to extend the club's thanks to **Lad's Hobby Center** for the three bags chock full 'o parts which they were kind enough to send along to last months meeting. And if I can get these guys heads out of those bags long enough, I'm sure they would thank **Lad's** too! They were a big hit!
- * **Salt Lake 'dried up'?!?** Seems as though the latest version of the **Greater Salt Lake Model Car Contest**, a.k.a. **GSL XV**, is apparently the last one according to **Larry Boothe**. Well gosh, **Larry**, what is there left to live for?!?
- * **New Magazine!** It won't be for everybody. It's called **Pontiac Enthusiast** (I told ya, didn't I?). It is published quarterly by **Milestone Miniatures Inc.**, 136-41A Jewel Avenue, Kew Garden Hills, NY 11367-1921 and costs \$15.00 for (6) issues. The magazine is printed on glossy stock, and has lotsa color pictures. It includes tech articles, show coverage, and feature cars (all **Pontiac**, naturally!). The particular issue which came into my possession had a beautiful color ad in the center of the new **25th Anniversary Trans**

- Am. Where th' heck are those Lotto tickets?!? Oh, and thanks to Lyle Willits for bringing this mag to my attention!
- * **Pontiac Power!** Another Injun attack! Seems as though Art Peterson's (wheelstanding) SS/IA '69 GTO won the Super Stock class at the '94 Winternationals! To do so, he laid down a string of low to mid 10.50s as well as overcoming a broken transmission! Congratulations to Art and thanks to **Pontiac Enthusiast** for the straight scoop!
 - * **Metal Shark?!?** One of Revell's latest offerings is a 1/20th scale 1967 427 Corvette. It features Tri-power, opening doors and hood, side pipes, and knockoffs. It is done in black with red interior and matching stripe. The tab on this puppy? A cool \$120.00 is all. If interested, call 'em at 1-800-446-4460.
 - * **Mopar Maniacs!** Word reaches me from the San Diego Model Car club of a stock 1969 Dodge Dart 2-door post from A&B Bodies. I'll work on getting an address printed as soon as I can get it!
 - * **"Your Father's Olds.....Not!"** Word is that Slix Decals plans to produce alternate decal sheets for Revell's upcoming Pro Stock Olds Cutlasses. These are rumored to be Warren Johnson's 1991 AC Delco car, the 1993 GM Performance Parts car, Kurt Johnson's 1994 United Auto Workers/GM car, and Mark Pawuk's Summit Performance car. This info comes to us via National Dragster by way of The Liars Club. Thanks, guys!
 - * **1/8th scale Hogs?!?** Seems as though Revell has just signed a licensing agreement with none other than Harley Davidson, Inc. to produce 1/8th scale snaptite kits of the 1994 Dyna Wideglide and Heritage Softail Classic. They are scheduled for release in early 1995 and will retail for \$12-16 (Save your money, Lyle!).
 - * **Diecast Horsie!?!?** Got the latest issue of the Ford Motorsports SVO catalog the other day. And lo and behold, there it was! A 1/18th scale diecast of the 1994 Mustang GT hardtop. If that ain't enough, there was yet another diecast even more interesting- the 1994 Mustang Cobra Indy Pace Car! They are made by Jouef and have opening doors, hood, trunk, fully detailed engine and interior. They will retail for \$39.99 through Ford and should be available as you read this.
