

Pontiac GTO—
The "Great One"

30th Anniversary

1964-1994

Volume 6, No. 9 May 1994

by: Timothy Sickle

Well folks, it hadda happen- We have very possibly set an **all-time attendance** record for meetings with a total number of 83 (!) warm bodies in attendance last month-and in the **Barn**, no less!! As has been the case for the last several meetings, final arrangements for our upcoming NNL were discussed (for what seems like the millionth time!) to ensure a quality show with plenty of fun for everyone in attendance. A highlight, if you will last month, was the appearance of the infamous **Vintage 'Bird of Larry "Birdman" Boothe** in what appeared to be a 'finished' state. Larry says that he has a few more 'minor' things to do yet (When will it end, Larry?). See a related item in the **Bits & Pieces** regarding Larry's vintage tin (plast ic?!?).

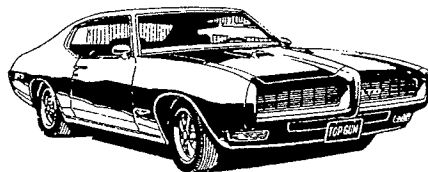

The raffle raised \$181.50 (plus \$26.00). The club would like to thank the raffle donors as shown below: Irv Arter, Ron Hamilton, Lyle Willits, Pat Maphis, Gary Sutherlin, Brad, Randy Paschke, Tim Sickle, Chris Whalley, Michele Rook, Mark Wheeler, Ron Roberts, George Openhym, Dennis Zadra, Charlie Bennett, Dirk Johnson (a.k.a. Detail Master), and Replicas & Miniatures Co. of MD. Special thanks also go out to those as shown below:

It also bears mentioning at this time that Dirk Johnson (a.k.a. Detail Master, P.O. Box 1465, Sterling, Va. 22170) will be a very active supporter of not only our club, but many other clubs across the country as well. It's up to us to actively patronize Detail Master in appreciation of his continued support [Ed. Note: With the detail items he has currently available (or on the way!), I don't believe this will be a problem!]

***** For Your Information! *****

The meeting dates for 1994 have been "sent down from the Mountain" so to speak by our own Matt Guilfoyle (and not without some serious wrangling, I might add!). All meetings will be from Noon to 5 PM and as you will quickly notice, we will be in the barn five times ** this year! For the rundown, see below:

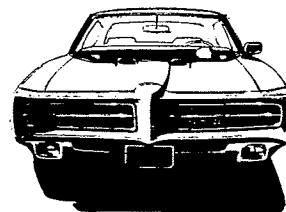

- | | |
|---------------|--------------|
| January 15 * | July 16 |
| February 19 * | August 20 * |
| March 19 | September 17 |
| April 16 * | October 15 |
| May 14 | November 19 |
| June 18 ** | December 17 |

* Yeah, you guessed it, we are relegated to the Barn for these meetings!

** Added at the last moment, PLEASE NOTE!

...THREE DEUCES & A 4-SPEED...
 ...AND A 389!
Sneakin' a Peek!

This column will appear as frequently (or infrequently!) as new releases from the manufacturers. The idea behind it is to give a "thumbnail review" of the releases as they hit the shelves with a detailed review to follow at a later date (hopefully!). We'll see how it goes!

* "Rain-X" Camaro (Revell #7358): Molded in yellow...knocked off of Revell's earlier Trans Am Mustangs...decals include 'raindrops' along bottom of car...nicely modified 90's style body w/lift-off front end w/minimal seams to attend to...properly braced windows...wide &

wider Goodyear Eagle racing tires....new small block Chevy valve covers w/raised "Chevrolet" script & bowtie logo.

* '94 Mustang GT (Monogram #2967): Molded in Yellow....very nicely done instructions w/parts named, colors listed, exterior/interior color matrix, equipment packages and options!....tail lights require body color be painted around them....Eagle GS-C tires w/Mustang 3-spoke wheels (including engraved Mustang in center!)....Disc brakes and rotors included....raised defroster lines on inside of rear window....clear lens for dash gauges....separate door panels....entire engine molded body color....separate windshield wipers....Mich "STANG" plate, window sticker, underhood decals.

* '94 Corvette ZR-1 (AMT #8069): Molded in Lt. Gray....Reissue of '93 ZR-1....new upholstery patterns on seats....new 5-spoke wheels....nice dash engraving....Mich "ZR-1" plate.

* '94 Chevy S-10 SS/LS (AMT #8964): Molded in Lt. Gray....Parts to build either an SS or an LS include LS /SS wheels, LS moldings on body (removal necessary for SS), chrome and body-colored front grilles....separate drop-in door panels....wheel painting instructions (including dull coat note!)....rear step bumper or rear roll pan.... nice Vortec V-6 (seam neatly hidden once assembled!).

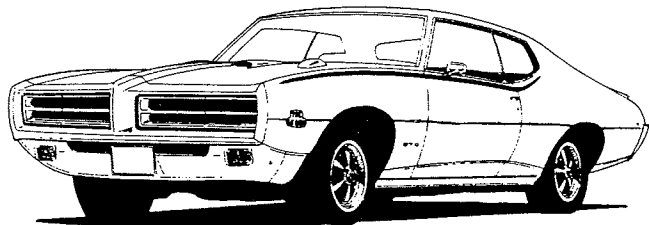

* Don Garlits Wynn's Charger (AMT #6438): Molded in Lt. Gray....even, not-too-shiny chrome....nice decals with instructions showing proper placement....black rubber band included for blower drive belt....nice Goodyear Blue Streak slicks, plastic Goodyear 'skinnies' up front....minimal flash....open parachute included.

* GMC Sonoma SLS 4X4 Highrider (Lindberg #72512): Molded in red....knocked off of excellent S10-SS....stock GMC wheels w/GMC logo recessed in center and custom 7-spoke wheels mount into same Goodrich Baja tires....Ind GMC TRK", Miss "HI RIDR" plates, dash gauge decal, window sticker, GMC logos, Highrider markings....clear parts again bagged....very little flash.

* The "Flintmobile" (Lindberg #72411): Molded in "Bedrock Beige"....consistent in 1/20th scale....minimal flash....detail paint & brush included....Bedrock "YABA DO!" self-adhesive plates....snap-fit assembly....Goodrock "Steamroller" tires.

HERE

THE
JUDGE

1969 Pontiac GTO Judge

(Monogram #2443; 1/24th scale; 64 pieces; Molded in Carousel Red, clear, chrome, vinyl tires)

"The Special Great One from Pontiac". That's how Paul Revere & the Raiders referred to this car in the commercial they did for Pontiac Motor division when the car was introduced. And a quick glance at Hemmings Motor News will bear this out with Judges of this vintage fetching prices in the five figure range! With Judges made from only 1969, 1970 & 1971, there weren't that many available. And according to the instructions, the first Judges were painted Carousel Red, but after that initial run, you could order one in any standard GTO color. And Monogram thoughtfully obliges with stripes in three different color schemes.

Body: This kit is a modified reissue, and in this case, the body was not modified, and it carries the requisite GTO rear side marker lights (shaped like the GTO crest), and a nice GTO emblem properly placed on the front fender, just above the chrome rocker panel molding. The "missing" rear quarter panel chrome strips are indeed correct as these were deleted in mid-1969. So, by adding these moldings using plastic strip, you can

build an 'early' 1969 Judge. The front bumper and valence are molded as one piece and the parking lights are molded in as well instead of being separate, clear pieces. Also included is a hood tach and one of the Judge's trademarks, the 60" rear decklid spoiler. A nice touch here is the inclusion of the optional cornering lamps for the front fenders (again, from the original issue) which are molded clear and ready for paint detailing.

Interior: The interior is molded tub-style, so detail on the door panels suffers somewhat. Mine will be enhanced with a set of Detail Master window cranks. The car is equipped with a 4-speed, and the console is molded to the bucket. Clutch, brake, and gas pedals are molded to the floor. An addition to the interior would be the Hurst shifter with standard "T" handle which plugs into the four-speed console.

Engine: The block and trans are molded in two pieces, leaving a seam the length of the unit to attend to. The distributor (such as it is!) is attached to the manifold. Prior to adding detail wiring, I removed 10 tips (not including one for the coil) 'cause this isn't a Viper! A slightly more proper Rochester Quadrajet was re-tooled and added. The exhaust manifolds are longer than normal, signifying the proper ram air manifolds (as in the earlier issue). New to this kit is a **Ram Air air cleaner**. Unfortunately, there is nothing mounted to the hood to mate with this new base. The upper portion of this ram air base will be painted gray while the bottom portion and the air cleaner lid will be painted satin black.

Chassis: A little dated, but not bad. One-piece front suspension allows wheels to snap on (and are not posable). The rear suspension and exhaust system are molded as one piece onto which the rear wheels snap. Shocks front and rear are conspicuously absent. The chassis does exhibit a decent level of engraved detail.

Wheels/Tires: Nicely done Rally II wheels are included with open slots. Unfortunately, the Judge used a Rally wheel without a trim ring. A little dull coat here should help. These wheels mount Monogram's **Goodyear Steel Belted Radial** which aren't quite correct either. The standard tire was a **G70x14 Wide Tread fiberglass belted blackwall**.

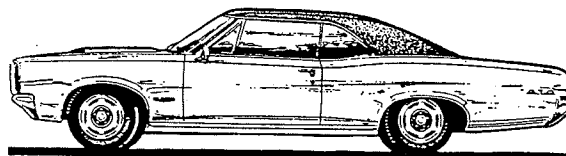

The decal sheet is another spot where changes were made. There are three different sets of stripes, but the colors all seem to be wrong. The stripe combos are **Yellow/Red/Blue, White/Red/Black, & White/Yellow/Green**. The latest Monogram decals seem to be only two colors, and the original issue seems to be more correct when it comes to color. The nice thing about this sheet though is the presence of Judge decals for the glove box door, 'Ram Air' decals for the hood scoops, a hood tach decal, and rear side marker decals along with a **"JUDGE"** Illinois plate.

The instruction sheet is step-by step and easy to follow. It lists suggested color choices and contains a color matrix listing '69 Judge color stripe combos. There is also a little capsule history of this milestone muscle car included which refers to this car as being equipped with the 370 hp. 'killer' Ram Air IV engine.

Well, there you have it. Another addition to our muscle car collections, and a must if you are a Pontiac fan as I am!

1967 Plymouth GTX

(Revell #7359; 1/25th scale; 106 pieces; Metallic Blue, clear, chrome, vinyl tires)

So, it's the Thirtieth Anniversary of the GTO and Mustang and the hardcore Chevy guy is reviewing a Mopar kit. Well, it's a strange world we live in. Actually, I have several Mopar kits and I'll start by saying that this one is the best. This is an all-new tool from Revell and the kit has

an abundance of separate,detailed parts almost approaching the detail level of the Monogram "wing things".

Body: The body shell is crisply engraved with all the stock badges and emblems. The hood receives two separate hood scoops. Other separate items added to the body include door handles, wipers, chromed gas cap, hood ornament, mirrors, windshield with visors, rear window, side windows, and even clear dome light inside the roof. The precisely engraved grille, tail panel and bumpers receive separate, clear parking lenses, headlight lenses, back up lenses, and clear red tail lights.

Interior: Comprised of 16 separate pieces, the interior builds up from the floor pan platform with integral rear seat. Door/side panels and seat patterns are highly engraved. The dash is built from the well detailed face panel and dash top panel. A tach and shifter are added to the separate chromed console (Hopefully, Mopar fans should know if the console should be chromed, aluminum, or interior color). Front bucket seats are two-piece affairs and the steering wheel and steering column are nicely detailed. A pedal assembly is added to the back (inside) of the firewall, which includes an emergency brake pedal.

Engine: (If you are converting this to Richard Petty's ride, you'll want to call it the "motor"). It is built up from 22 separate pieces including both radiator hoses and plastic heater hoses. Each piece is highly detailed. The chromed dual carb air cleaner receives a "426 Hemi Head" decal. The well-engraved, textured valve covers are chromed. I believe these are supposed to be painted flat black. Flanking the engine assembly are the radiator support bulkhead, radiator, shroud, horn, firewall, master cylinder, and wiper motor.

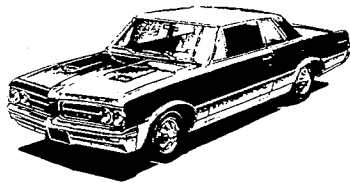

Chassis: The chassis engraving is very impressive and the assembled unit is built up from 13 pieces, not counting wheels or tires. The wheels are Magnum 500 Mopars with the slots opened. The Goodyear Polyglas tires are lettered on one side so that the red-line decals can be applied to the smooth sides! Neat idea! I haven't tried these decals yet, but based on experience, I would apply these red-line decals to the unaltered 'shiny' vinyl sidewall and after several hours apply a coat or two of clear flat water-based acrylic. This should seal the decal to the tire.....maybe.

The decal sheet contains black (only) stripes, the red-lines, the air cleaner decal, Illinois "426 GTX" license plates, and a little white emblem for the radiator hose which can not actually be seen by people my age!

The instruction sheet includes a complete factory color matrix.

I think (therefore, I'm probably wrong) that a plain Belvedere can be built by omitting the twin hood scoops and removing the GTX script. Again-check with someone who knows Mopars. I predict that a lot of aftermarket #43 decals will be sold soon. Regardless of brand loyalty, you'll want at least one of these kits if you are into factory muscle!

BITS & PIECES

- * **NNL Sign-up.** Remember, we will be circulating a sign-up sheet between now and our show this year (in May), so you have plenty of time to sign up. And if you do sign up, please show up, OK? We are also actively seeking ideas for activities at the NNL such as blind builds, scrambled car names, name the parts, and coloring contests just to name a few. If you have any ideas, let an officer know at an upcoming meeting.
- * **Talking Heads!** Workers at our upcoming NNL show will be wearing colorful hats making them easy to spot to answer questions and render assistance to those in need.
- * **Low Key.** Something needs to be discussed. With the ever-increasing

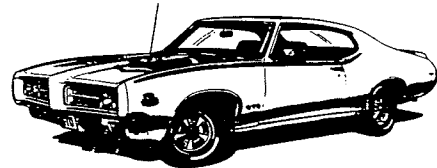

attendance at our meetings, there comes a need in some cases for some supervision. Kids are always welcome at our meetings, but they must not be allowed to run around, making noise. There is the distinct possibility of damage to the models on display if this is allowed to continue. Not to mention what the College would have to say about this activity. So, let's keep the kids in check and continue to have a good time!

- * **Charity starts at home!** You will recall that at last month's meeting I made a plea for contributions to the **March of Dimes**. Without going into detail, I was **underwhelmed** at the response. The money collected was supplemented by the Sickles' donation, and mailed to the proper people.
- * **Aftermarket 'Backwards R' Us!** In recent conversations with **Hobby Works**, The management wished me to relay the fact that they have a supplier that provides them with several different lines of aftermarket items (first & foremost, **decals!**). And if they don't have it, they will get it! So if you need somethin' quick, give 'em a call, maybe they have it!
- * **Speakin' of decals!** Seems as though on a recent visit (last week end!) to **Wheels Hobby Shop** in Frederick, John asked that I mention that he has **Harry Gant Farewell Tour** decal sets available.
- * **Lightning strikes yet again!** Yeah, you guessed it-**Charlie Bennett** and the 'infamous' "Valvoline" Indy car. Seems as though he was in attendance at the recently-held **Masscar Model Club's 6th Annual Model Car Exhibition**. The result? a **1st Place in Competition, Road Race & Prototypes**, a **2nd Place in Small Scale** for a recently completed **1/43rd Turbine Car**, and a **1st Place in Working Features** for his yet-to-be-completed **Turbine Car**. And, as if to top this all off, am told that this **Indy Car** will appear both on the cover (in screamin' color) and inside the next issue of the **Plastic Fanatic** as well, since this is to be an **Indy car special issue**. Hey Charlie- It's about time to retire that **Indy car** to the **Bennett Hall of Fame**, Eh?
- * **Show Time!** Results are reaching me from the recently-completed **Greater Salt Lake Championship, the Final Chapter** and it seems as though several **MAMA's BoyZ** did very well for themselves. Our own **Dave Roehrle** copped **2nd Place Specialty Class** for his '59 **Caddy Rustbucket**; our "Founding Father", **Norm Veber** sheepishly admitted to copping **1st Place Street Machine** for his '62 **Bel Air 409**; and last but by no means least, "head" **MAMA's Boy** (lotsa head!) **Larry Boothe** managed to stagger away with **Best Replica, Best Detail, People's Choice, and Best of Show** for his **Vintage T-Bird**. With the weight limit, the airline forced **Larry** to ship all this "gold" home by surface transportation! Seems the plane couldn't get off the ground with all of **Boothe's** luggage & awards! Is that true, **Larry**?
- * **More Kudos!** Am told that one of our own, **Jim Chesnutt** snagged a **1st Place** award in the **Race Car** class at the recentl-held **Virginia Modelfest**. Congratulations to all the lucky award recipients this month!
- * **Club News!** Seems as though one of our own, **David Mark Wheeler** has started a **model club** which meets in the **Glen Burnie** area. Known as "**Our Model is Christ**", they meet at **The First Christian Church**, 320 **Oak Manor Drive**, **Glen Burnie, MD 21061** between 1 and 4 P.M. and everyone is welcome. Meeting dates are listed below (with seminars scheduled as well):
 - June 11th-Open
 - July 9th-Open
 - Aug. 13th-Open
 - Sep. 10th-Basic Spray Painting (Irv Arter)
 - Oct. 8th-Open
 - Nov. 12th-Engine Detailing (Tim Powers)
 - Dec. 10th-Christmas Party/Gift Exchange

If you are interested in attending, have questions, or are possibly interested in giving a seminar, contact David Mark Wheeler at (410)536-8175.

- * **Mopar Maniacs!** Remember last month when I reported on a stock '69 Dodge Dart 2-door post? Well, for interested parties, the info is as follows; A + B Bodies, EWtc., 6133 Horton Drive La Mesa, CA 91942-3819 Ph.. So, if you are interested, reach out and touch 'em!
- * **Pontiac Power!** Seems as though the Royal GTO car club did very well for themselves at the World of Wheels at the D.C. Armory. Of the 6 cars entered, 5 cars were awarded trophies including a 1st Place Altered/Restored to Lee Hohman for his beautiful '67 HO GTO; 1st Place Competition to Rob Schneider's '85 Grand Am Super Pro car; a 2nd Place Competition to Norm & Lisa Drevo for their awesum '66 GTO Super Pro car; a 4th Place Late Current Restored for his 1-owner '69 Judge; a 3rd Place Current Restored to John Andersen for his beautiful black '67 GTO; and finally, Cora Lee Gilbert blew 'em all away in the Conservative Hardtop class with her '71 Grand Prix. Congratulations to all of you, it is well-deserved!
- * **Condolences to Larry & Betsy Boothe** on the death of Betsy's Mother. A card was signed at last month's meeting to be mailed to them to let them know that our prayers are with them.
- * **Get Well wishes!** Am told that the owner of Winship Hobbies recently suffered an injury to his eye. Here's hoping he makes a speedy recovery!
- * **Presidential Pony!** I understand that President Clinton actually got the chance to drive his '67 Mustang convertible at the recently-held 30th Anniversary Mustang Celebration at Charlotte Motor Speedway (for all of about 250 feet!).
