

MARYLAND AUTOMOTIVE MODELERS ASSOCIATION

Volume 9, No.6, February 1997

by: "GTO"

(The *Maryland Automotive Modelers Association* is a chapter of the *IPMS* in addition to the *AMS*)

It seems as though all the predictions of doom and gloom about moving our meeting place to Greenbelt were totally unfounded. Over 80 people (!) were in attendance for our January meeting at the new location, so it seems as though we've outgrown the new room in the first month!! It was especially gratifying to see all of the 'Pennsylvania gang', who had their trip extended by about 15 minutes (or so I am told!). Again, thanks to Walt Rook (and everyone else involved!) in getting this new meeting place set up! It should work out really well later this year, with the playground just outside the building for the kids.

The raffle raised \$102.00 (!) (as well as \$33.00 from the box!). The club would like to thank the raffle donors listed below: *Mike Hemp, Ron Bradley, Bill Kilby, Brad, George Johnson Jr., Dave Toups, Max Wolfthal, Rex Turner, Mike Tate, Joel Chevery, John Kester, Bill Wagaman, Arthur A. Henriques, Chris Whalley, Barry Horner, FasTrack Hobbies, and Replicas & Miniatures Co. Of MD.* Special thanks also go out to those as shown below:

'97 Meeting Schedule

Well guys, word has just come down from the mountain regarding next years' schedule and meeting place. If you have been on another planet or something, we are moving to the **Greenbelt Community center** multipurpose room for the dates listed below due to what I call the 'Greed Factor' of the folks at Catonsville Community College.

January 18th
February 15th
March 15th
April 19th
May 17th
June 21st

July 19th
August 16th
September 20th
October 18th
November 15th
December 20th

From the Baltimore Beltway (RT 695): Take Exit 7, Route 295 (Baltimore-Washington Parkway) south towards Washington approx. 18 miles to Route 193 (Greenbelt Road), and exit. When on the off-ramp, stay to the right and merge right onto Southway (see below).

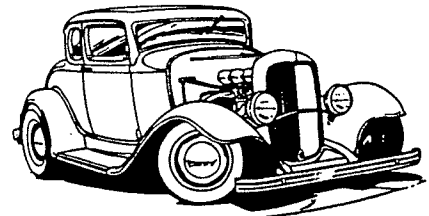

From the Washington Beltway (RT 495): Take Exit 22 north, towards Baltimore. Stay in the right lane and take the first exit onto Route 193 (Greenbelt Road). When on the off-ramp, bear to the right and take Greenbelt road west, towards College Park. Stay in the right lane and immediately after passing over the Parkway, make a right (at the light) onto Southway (see below).

Once on Southway: Go straight to the second (2nd) STOP sign. Make a left onto Crescent road. Go to STOP sign and make a right into the parking lot behind the Greenbelt Library. Once in parking lot, look to right. The large, white building is the Greenbelt Community Center. Enter building using doors near fenced tot lot. The multi-purpose room is on the second floor. There is an elevator to the left of the entrance.

Sneakin' a Peek!

We haven't received any new releases this month!

Prez Release

I would like to thank all of you who voted for me again this year to continue to be your '**Fearless**' (!) **leader**. I am truly honored to be the President of the largest and best model car club in the country.

Last year, I tried a few new things that didn't work really well, as well as some ideas which were more successful, and these we wish to continue. I think it important to get back to the **how-to seminars** that we started. All we need is to find that **old, elusive '67 Camaro kit** and teach **Larry Boothe** what the bottom of a Chevy looks like, so that he can cover 'chassis detailing' (Come to think of it, we need to find **Larry Boothe!**). Also, I believe that the '**Theme Month**' went over well last year, so we may vote on doing another one this year. Our last **Club Auction** was in '95, so maybe we have accumulated enough stuff to turn one man's garbage into another man's gold this year. Your officers will be putting together the details of our upcoming **7th Annual Mid-Atlantic NNL** very soon, and some of you will be selected, placed in a small room with a hot light bulb over your head and beaten into submission to tackle one or more tasks at the show. Most importantly, I am always looking for new ideas for the continued success and growth of our club.

With the myriad of new kits on the horizon, and our active membership **averaging 75-80 members each month**, I anticipate a fantastic year!

Oh yeah, I almost forgot-your old Prez is now "**Lost in space**"-cyberspace, that is! I can be reached at **MAMAPrez@aol.com**.

Dare to be Different!

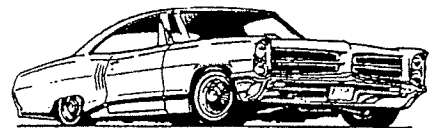

Ever suffer from the dreaded *Builder Burnout*?! No more ideas being churned outta the 'ol gray matter with regard to the stuff you usually build (Street Rod, Musclecar, racer, etc) and you want to build, but you are totally bored building the same type of model? Here's my RX to that problem-*Dare to be Different!* Try this: Scope out other model builders work at club meetings, scan model car publications more closely, visit car-related events, talk with other builders, and build another type of model, even if it is box stock! Don't use that lame excuse that you can never build like that. How do you know if you don't try? We will always be harnessed by our weakness if we don't attempt to overcome them! Practice makes perfect, Learn from your mistakes!

I recently experienced Builder Burnout 'til I saw some neat looking creations at a club meeting. I really got turned on seeing late model NASCAR chassis, motor, etc. shoehorned under early 50's Ford/Chevy bodies (*whatever turns you on, Mike!*). Sure, I screwed up with some of the modifications on my first model, but this will be avoided in my second creation. Here's some of my other 'Dare to be Different' projects I have attempted:

- **Pro Street:** '49 Ford (351 V-8), '60 Desoto, '61 Valiant (Hemi), '61 Ranchero (Hemi), '50 Ford pickup (Boss 429), and a '58 Edsel sedan delivery.
- **Dioramas:** Tractor Shed containing a weathered car; a Salvage Yard containing cars, trucks, tow truck; a Dirt Track with a damaged car rolling over; a weathered car with a tree growing in the engine compartment; and a burned car.
- **Racers:** a '66 Buick Enduro car; a '39 Chevy Coupe dirt tracker; 39/40 Ford Coupe/Sedan dirt trackers; NASCAR 49 Ford; 70 Chevy; and a Cutaway Petty Pontiac.
- **Muscle Cars:** '65 Shelby GT-350 convertible; '65 Chevelle SS396 convertible; and a '64 Dodge (equipped with a Viper V-10).
- **Trucks:** '64 Chevy and '53 Ford tow truck conversions; and a Pro Street NASCAR Chevy Super truck.

Get the picture? Pop the cork on creativity and Dare to be Different! If any other builders have additional ways to overcome Builder Burnout (that we can print!), drop me a line!

Funny Pages: Real Insurance Reports

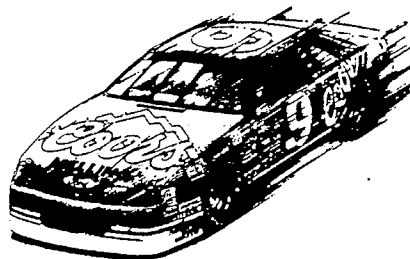

The following items were actually found on accident reports submitted by policy holders to their insurance companies. Hope you get a chuckle out of it-I found it on the Internet!

1. The other car collided with mine without giving warning of its intention.
2. I thought my window was down, but found it was up when I put my hand through it.
3. A pedestrian hit me and went under my car.
4. The guy was all over the place. I had to swerve a number of times before I hit him.
5. I pulled away from the side of the road, glanced at my mother-in-law, and headed over the embankment.
6. The accident occurred when I was attempting to bring my car out of a skid by steering it into the other vehicle.
7. I was driving my car out of my driveway in the usual manner, when it was struck by the other car in the same place it had been struck several times before.
8. I was on my way to the doctor's with rear-end trouble, when my universal joint gave way, causing me to have an accident.
9. As I approached the intersection, a Stop sign suddenly appeared in a place where no Stop sign had ever appeared before. I was unable to stop in time to avoid the accident.
10. The telephone pole was approaching fast. I was attempting to swerve out of its path when it struck my front end.
11. To avoid hitting the bumper of the car in front, I struck the pedestrian.
12. My car was legally parked as it backed into the other vehicle.
13. An invisible car came out of nowhere, struck my vehicle, and vanished.
14. When I saw I could not avoid a collision, I stepped on the gas and crashed into the other car.
15. The pedestrian had no idea which direction to go, so I ran him over.
16. I saw the slow-moving, sad-faced old gentleman as he bounced off the hood of my car.
17. Coming home, I drove into the wrong house, and collided with a tree I don't have.
18. The indirect cause of this accident was a little guy in a small car with a big mouth.

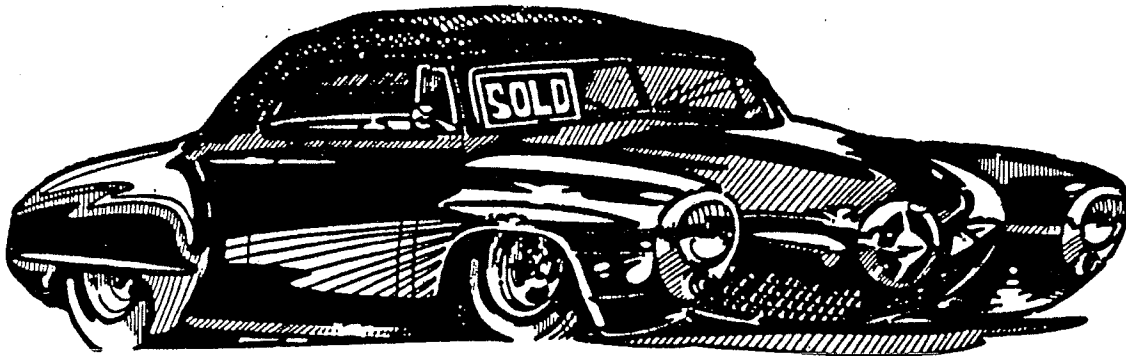

BITS & PIECES

- **Special Thanks!** We would like to take a moment to thank MAMA's Boy *Mike Adams* for the donation of two *World of Wheels tickets* to last month's raffle. Hope the winner enjoyed the show!
- **MAMA 'Rodders'!** None other than our own *Tim Powers* and *Larry Boothe* managed to get themselves into this month's *Custom Rodder*.
- **Forgotten acronym!** Got a call from noted Pontiac enthusiast *Paul Zazzarine* the other day after reading the American Car acronym article in last month's newsletter. He informed me of one which I somehow missed- *MOPAR (Move Over Pontiac Approaching Rapidly)*. Thanks Paul!
- **New Digs!** By the time you read this, *Bob Korunow* (a.k.a. *Model Car Garage!*) should be in his new digs! His new address is 2908 S.E. Bella Road Port St. Lucie, FL 34984.
- **All American E-Mail!** Yup, *Art Anderson* of *All American Models* now has an E-Mail address! You can reach him at *AAMRESIN@aol.com*. And after Feb 1st, his new phone number is (765)423-4565.
- **Cruisin' Malibu!** Nope, not the beach, a Chevy Malibu! Seems as though Randy Frost strikes again! He is set to release a *1981 Chevy Malibu 2-door coupe* mastered by Jack Pennington. It will be aimed at Replica Stock and Super Stock (Ed. Note: Can you say Pro Street?!) race car builders. Following the initial release, a *4-door sedan version* will appear for all you Light Commercial builders. Contact Randy at *Perry's Resin Replicas, 43 Stafford Crescent, Whitby, Ontario L1N 8T7 Canada* or call him at (905)430-6052, and tell 'im MAMA's BoyZ sent ya! .
- **Rat Bike!** In San Francisco, the Stone family's pet rat decided to crawl up the tailpipe of dad's motorcycle. To get a better look, dad lit a match-bad idea! The match ignited a gas pocket in the pipe which ignited dad's mustache and severely burned his face, and that's just for starters! It also ignited the rat, which ignited a larger gas pocket and shot the rat from the tailpipe like a cannonball right into dad's face! It broke his nose and burned him even more!
- **Bad case of gas!** In Marysville, Utah, the fire station is all volunteer, so the station is only open when the fire alarm sounds. So, nobody was there the night that two thieves broke in to siphon gas from a fire truck. Afterwards, to see if any gas was left in the truck, one of 'em struck a match. Let's just say the fire alarm went off and leave it at that! Didn't anybody ever tell these characters about playin' with matches?!
- **"Where's my hat?!"** Jason Jinks of Bay St. Louis, Mississippi a couple of weeks ago in Louisiana of injuries he received trying to retrieve his hat. A boy and a girl, who were riding in the back seat of the car with Jinks, said that while driving after drinking whiskey and taking pills, Jason's hat blew out the open car window. He stopped, opened the car door, and threw it into reverse, driving backwards in the dark at speeds up to 30 mph. He hit the brakes, and fell out on his head.
- **New Stuff! *Model Car Garage* is at again!** *Bob* and *Rik* have a buncha stuff headed your way, especially if you are a NASCAR fan. MCG 2096 is Stock car window clips (\$5.95); MCG 2097 is Stock car window inner bracing strips (\$9.99); MCG 2098 is a Stock car dash panel w/acetate gauges (\$9.99); MCG 2099 is Stock car fuel inlet/overflow inlet plates (\$5.99); MCG 2100 is Stock Car duct grille works for 1/24th scale '96 T-Birds (\$7.99); MCG 2101 is Stock car hood and trunk hinges (\$9.99); MCG 2102 is Stock car disc brake rotors (\$5.95); MCG 2103 is Stock car roll cage gussets (\$4.99); MCG 2104 is Race Truck duct grille works for 1/24th scale Chevy Race trucks (will do two trucks) (\$9.99); MCG 2105 is a Race Truck rear spoiler (will do two trucks) (\$8.99); MCG 609 is nut and bolt head details (rubber-backed photoetch) (\$6.95); MCG 2093 is flathead engine fans (2 styles) (\$2.99); MCG 2094 is Lowrider wheel knockoffs (\$4.95); and MCG 2095 is Lowrider window plaques #2 (\$4.95). Unless otherwise specified, these items will fit either 1/24th or 1/25th scale kits. Bob and Rik are conspiring to keep us po' modelers broke! I'm willing to bet there is much more in the pipeline as well-Bob has that new, palatial estate to pay for!
- **Diecast American Muscele!** *Matchbox* has released a line of 1/43rd scale *Musclecars*. They consist of a *1967 Pontiac GTO*, a *1970 Chevelle SS454*, a *1971 Plymouth 'Cuda 440 6-Pack*, a *1970 Plymouth Hemi Roadrunner*, a *1970 Mustang Boss 429*, and a *1968 Camaro SS396*. The *GTO* is the *first release (the only way to do it!)*, followed by the SS454 Chevelle. They cost \$29.95 each, and come out one each month. Call 'em at 1-800-858-0102 from 9 AM-5 PM Monday through Friday.

- **Diecast Work trucks!** *Matchbox* has been busy lately, also releasing a line of *six Fifties pickups*, three Fords and three Chevies in 1/43rd scale. These trucks are authorized by AAA, and they bear oil company logos. The Fords carry the colors of *Red Crown Emergency Service* ('55 Ford), *Sinclair Snow Plow* ('54 Ford, complete w/snow chains!), and *Flying 'A' Tire Service* ('53 Ford). The Chevies appear in the colors of *Mobil Battery and Quick Start Service* ('56 Chevy), *AAA Towing and Service* ('55 Chevy), and *Dixie Gas, Parts and Service* ('57 Chevy). Interested? As with the Musclicar series above, the cost is the same, and the phone number is too.
- **More trucks!** Just saw the other day where *The Danbury Mint* is producing a '72 *Chevrolet Cheyenne pickup*. It is in 1/24th scale, is red and white, and features opening doors, an opening hood to show off the 350 cu. In., 250 hp. small block V-8, a fully functional suspension w/steerable wheels (through the steering wheel), and a sliding rear window. Price is \$118.00. Interested? You can reach 'em at *47 Richards Avenue, Norwalk, CT 06857*.
- **More meetings!** *Mark Wheeler's club, "Our Model is Christ"* has set their '97 meeting dates. They are as follows: February 2nd, March 9th, April 13th, May 4th, June 8th, July 13th, August 10th, September 13th, October 11th, November 8th, and December 14th. Special activities will occur at the February and December meetings. They are held at *The First Christian Church at 320 Oak Manor Drive Glen Burnie, MD 21061* from 2 PM to 5 PM in the *Fellowship Hall*. For info, call (410)761-3863 or (410)551-4230.
